Team Rocket  
Aashna Garg and Cypress Anderson

## Project Concept

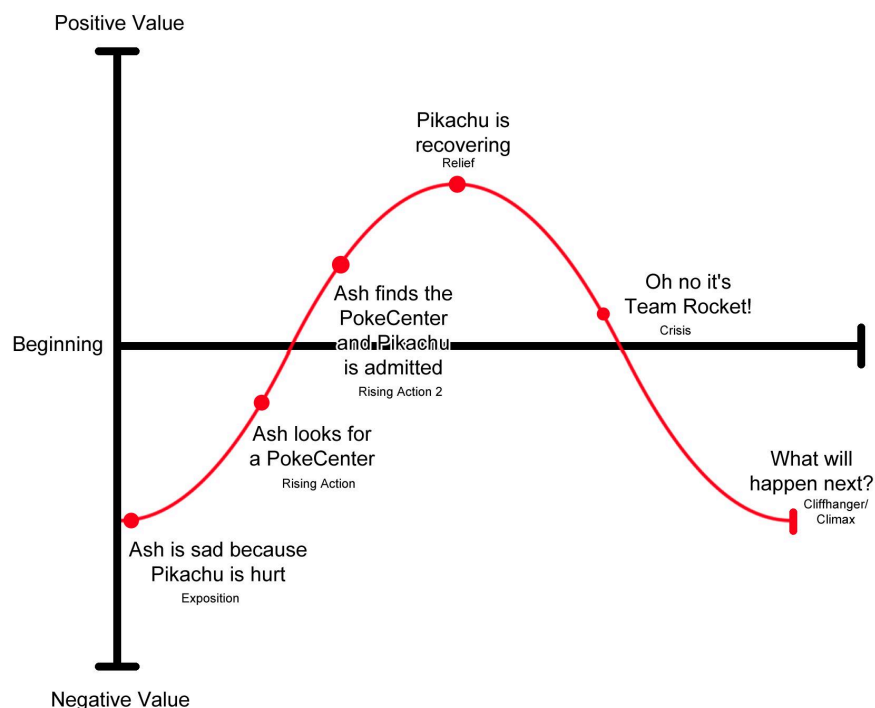

### Narrative Treatment

**Show and Episode:** Pokemon: Indigo League, S1 EP2

**The scene we chose is:** Ash at hospital with injured Pikachu and friends and Team Rocket's first motto and appearance.

**Summary of Scene:** Pikachu is injured and can't move. Ash is very sad and worried and finds a PokeCenter where he finds a nurse who takes Pikachu to provide a procedure. After a while Ash bumps into Misty who he knows a little bit but doesn't like. The nurse then comes out with Pikachu and says that Pikachu should recover soon. But then suddenly Team Rocket consisting of James, Jessie and Meowth appears from the roof introducing themselves for the first time wanting to steal Pikachu and the scene ends there on the cliffhanger with Ash panicking.

**Why we chose this scene:** We chose this scene because this scene has its ups and downs which makes it a great story. It also has a lot of characters which means we can use many interactions in our cardboard enclosure. Also our team name is Team Rocket and we wanted to choose a memorable scene from Pokemon with Team Rocket's motto in it.
